

CAMPaign '07 Ends with Success

Over \$3.6 million raised for ACA

ACA celebrated the successful conclusion of CAMPaign '07 during the ACA National Conference in Austin, Texas. The purpose of CAMPaign '07 was to combine the necessary resources to set ACA and the camp community on a course for further growth and success to ensure that both today's and tomorrow's children and youth are able to benefit from a positive camp experience.

Through gifts big and small, this five-year, fund-raising effort raised over \$3.6 million and was the largest amount of money ever raised by our organization thanks to the concerted effort of hundreds of generous donors. CAMPaign '07 provided the funding for ACA's groundbreaking youth development research project, an entire organizational rebranding including new logos and new public image, and the launch of *CAMP: A Resource for Families*, which has been one of the most effective public relations tools ever developed by ACA.

As CAMPaign '07 draws to a close, projects such as research for program improvement of the camp experience and additional efforts to increase the number of people who attend camp will receive important additional funding.

Annual Support: Ensuring the Future of Camp

For nearly 100 years ACA has been there to help the camp professional with cutting edge research, top-notch educational opportunities, expansive public education initiatives, and helpful tools such as *Camping Magazine*, Accreditation Standards, and the 24-Hour Crisis Hotline to help camp directors in need.

Membership fees and dues alone do not cover the costs of providing these services that camp directors and staff have come to depend upon. Each year ACA asks its members, camps, and the public to help with a donation to support the ongoing work of the Association through our Annual Support program. For the last five years, those funds have rolled into the important CAMPaign '07 and will start anew in 2008 as a critical stand alone fund-raising effort.
